

# Resturant and Bar list

Here you find recommondation for bars and resturants in PV & bay area.

Please try and add link to both OpenStreetMap and Google Maps for easy navigation to the places (If the place is not on OpenStreetmaps then please contact @madsjuhl on Telegram and I will add it to the OSM and the List when ready)

The list is so far compiled of Josh's recommendation that he shared on Telegram (Credits to him)

## **Yamada Sushi**

**Description:** below act 2 is amazing. Jorge is fluent in English and super awake. The guy came up to me 2 years ago and asked me if I had ever heard of David Icke

I didn't even say anything ideological to him before he asked me. He told me from April 2020 that the whole thing is a scam to depopulate.

He's unjabbed though the staff mostly are. Voluntarily. The sushi is amazing. As is the hibachi. He used to cook in Las Vegas and is a dual citizen.

## **Calmate Cafe and restaurant**

**Description:** is one of the places I've gone to the longest. They're on Honduras and the owner Manny is a good friend who is unjabbed. I watched him fight (verbally) inspectors several time over the past couple years.

Amazing wraps (comote wrap is nice and filling) and the matcha latte Frio is amazing. It even has massala in it.

He owns the salad bar a few businesses east.

## **Burning Burrito**

**Description:** which many of you have gone to is absolutely amazing. The owner and his wife are super awake. Totally family owned and operated. They opened only recently after the flood.

They do not wear masks themselves (except the chef from time to time).

## **Los Abuelos**

**Description:** on the beach is a little run down and there are a lot of sales people around. But they have never asked for masks and in fact are the only place on the beach that NEVER shut down during lockdown and broke the mandates and acuerdos every night.

They have cheap drinks, good chili relleno. Beautiful sunset views.

### **Mango's (Beach Club)**

### **Mama Caguamas**

**Description:** never asked for masks and have been very open to our groups. Many of our group play music there and indeed MET there. If you go any night (other than monday) you are sure to bump into freedom lovers.

### **The Cafe**

### **El Carboncitos**

**Description:** is my favorite taco cart in the city. The pastor is incredible. On Honduras near the water and across from captain Don's. Excellent night time food. Much better than Pepe's which is also a great option. Cheap and delicious. Very local. Most people working there do not speak English.

Very well known cart among locals. A hidden secret.

### **Yambak**

**Description:** which many of you have been to. They're amazing. 3 floors. Music 3 days a week. Lively scene. The first nightclub in the city to reject the vax pass. Owner once told me he wants it to be the headquarters of the resistance.

Arturo is an amazing business person. Makes great pizza and is super awake. He owns yambaks in sayulita, Aguas calientes and PV.

### **Casa Traditional**

**Description:** next to the Guadeloupe church in Centro. Amazing barbacoa and pibil. Large tequila collection. Never asked for masks that I know of. Highly recommend.

### **Club Liberty**

**Description:** next to Liberty karaoke. Extremely local and the locals do NOT like you playing American music. Haha

Appears rough at first sight but it's a good place that always opposed the vax pass and has super cheap drinks and food. Never been asked for a mask there, though Liberty karaoke, the 3 floor place next door HAS asked for masks back in 2020.

### **Puro Peru**

**Description:** up the hill from Malecon you find a Pero Peru it has great cuisine from you guessed or Peru for those that don't know it's is kinda like wok food but with different spices etc. - the owner has been called our for not telling people to wear masks and is just a great person

There is a small TV where you can see him cook which is very entertaining - it's just a home that works as a restaurant so it has a very relaxed atmosphere
